[REV-015] Waterproof Marine Ply & Zero Stains • ★★★★★
Client: Baljeet Kaur & Paramjit Singh (Retired Government Officers) • **Location:** Kharar-Landran Road Corridor, Mohali
"Our old kitchen had persistent dampness from the outer wall, and the local carpenter's woodwork swelled within two years. The Elegant/Kirat team first treated the civil masonry with Dr. Fixit chemical waterproofing, re-routed the CPVC water lines, and then installed our custom parallel modular kitchen. They used genuine calibrated 710 marine plywood carcases, Hettich InnoTech soft-close tandem boxes, and high-gloss 1mm acrylic shutters. The 20mm seamless quartz countertop doesn't stain even with turmeric or hot pans. Their post-installation cleanup was immaculate. 10/10 recommendation!"

[REV-016] ISI Stamp Verified & European Finish • ★★★★★
Client: Shalini & Gaurav Aggarwal (Corporate Managers) • **Location:** Sector 82, JLPL Corridor, Mohali

The Blum and Hettich hardware operates so smoothly, and the hydraulic bi-fold lift-up wall cabinets are brilliant for overhead access. What won my trust was their transparency—they invited me to verify the plywood ISI stamp on site before fixing laminates. Absolutely flawless execution!"

[REV-023] Engineering Discipline & Damp Proofing • ★★★★★
Client: Major General R. S. Minhas (Retd.) (Armed Forces Veteran) • **Location:** Sunny Enclave, Sector 125, Kharar
"We purchased a second-hand independent kothi that had dampness rising in the ground floor walls and poor layout division. Most contractors suggested superficial putty and paint, which fails in six months. Elegant/Kirat Civil Engineers diagnosed the root cause, excavated the damp perimeter, injected chemical damp-proof barriers, and rebuilt the damaged brick masonry with 53-grade cement. They also widened our living room opening by placing an engineered RCC lintel beam. Their structural discipline, safety measures, and cleanup etiquette were exemplary. Rare to find such genuine civil thekedars who actually understand building engineering."

[REV-024] Monsoon-Tested Terrace Waterproofing • ★★★★★
Client: Kuldeep Saini (Dairy & Agro Entrepreneur) • **Location:** Opp. Shiva Enclave, Kharar
"Had severe water leakage from the top terrace spoiling the master bedroom false ceiling below. Their civil crew scraped down to the bare RCC slab, repaired micro-cracks with polymer-modified mortar, laid a multi-layered Dr. Fixit chemical waterproofing membrane with fiber mesh, and re-laid tiles with laser slope toward drain spouts. We waited through the heavy Punjab monsoon before writing this review—the ceiling is bone dry. Extremely reliable civil contractors!"

[REV-031] Millimeter-Precision Column Concealment • ★★★★★
Client: Ritu & Kapil Devgan (Business Consultants) • **Location:** ACME Heights 2, Sector 117, Mohali
"Our bedroom had odd structural pillars and an irregular niche where standard readymade wardrobes wouldn't fit without leaving ugly gaps. Elegant/Kirat designed custom floor-to-ceiling sliding wardrobes that masked the RCC column completely. They used anti-warp calibrated plywood, high-end aluminum profile tracks from Hafele, and tinted reflective glass shutters. Inside, every compartment was customized with pull-out trouser racks, tie organizers, velvet jewelry trays, and an integrated digital locker. The craftsmanship and fitment are flush to the millimeter. Outstanding work!"

[REV-032] Bespoke Craftsmanship Without the Hassle • ★★★★★
Client: Ravinder & Simrat Bhasin (Media Executives) • **Location:** Sector 91, Mohali
"We hired them for modular wardrobes across all 3 bedrooms and a master media wall. What sets them apart is their millwork precision—no rough edges, no foul chemical smell, and heavy-duty soft-close mechanisms that glide with a gentle push. They also added warm 3000K motion-sensor LED lighting inside every wardrobe bay which looks incredible at night. If you want bespoke luxury carpentry without dealing with undisciplined local carpenters, this is the company to trust."

[REV-039] Architect-Grade Plumb & Cove Detailing • ★★★★★
Client: Er. Manav & Divya Thapar (Architect & Structural Engineer) • **Location:** Wave Estate, Sector 85, Mohali
"As an architect myself, I am very picky about ceiling plumb lines, zero-shadow cove finishing, and lighting color temperatures. Elegant/Kirat used authentic Saint-Gobain Gyproc moisture-proof boards on heavy-gauge zinc GI framework, properly anchored into the RCC slab with brass expansion fasteners rather than cheap rawlplugs. They mapped magnetic track rails and 3000K architectural COB spotlights with separate 2-way switching and smart app controls. Even along the 24-foot long hall, the cove edge is laser-straight with no waviness. Their painter applied joint tape and putty flawlessly so no seams show under indirect light. Masterclass execution!"

[REV-040] Minimalist Lighting & Spotless Site • ★★★★★
Client: Hardeep Singh Cheema (Real Estate Developer) • **Location:** Sunny Enclave, Sector 125, Kharar

Their lighting consultant suggested warm indirect cove lighting with recessed slim profile fixtures and wooden rafter accents in the dining zone. The crew completed false ceiling framing, board fixing, electrical conduit pulling, and two coats of primer in just 6 days. Clean, polite crew that vacuumed and swept the floor daily before leaving. Very pleased with the outcome!"
